

# CARRANZA FLEES; FIGHT GOVERNMENT TO TAKE IDEAL COAL MINES

## TROOPS TO BE USED FOR PROTECTION OF WORKERS; 14 PERCENT ADVANCE IN WAGES TO BE PUT INTO EFFECT

GOVERNMENT DECIDES ON MOVE TO ENFORCE PRODUCTION OF COAL IF OPERATORS ARE OB-DURATE; MANY OWNERS EXPECTED TO COMPLY WITH ORDER.

(By Associated Press)  
Washington, Nov. 28.—Seizure of bituminous coal mines where the owners do not show a disposition to cooperate in increasing production, and use of troops to protect all miners who desire to work has been decided upon by the government in an effort to end the bituminous coal strike, it was stated today officially.

In mines seized by the government the 14 percent wage advance agreed upon by the cabinet will be put into immediate effect, it was said.

These plans of the government were agreed upon by the cabinet last Wednesday, officials said, so as to meet the situation resulting from a refusal of the operators or "the owners" of both, to agree to the government's wage increase proposal.

No General Plan Adopted  
Cabinet officers expected many of the owners to put into effect voluntarily the 14 percent wage increase. Whether the mines of those refusing to do so would be seized was not made clear, but it was said that there was no general plan for government control, that each individual case would be decided on its merits.

Steps taken over by the government will be operated by the fuel administration, but details as to compensation of the owners were not disclosed. While various federal agencies were preparing to carry out the government's program, fuel administration officials reaffirmed in even more emphatic terms his position that "proletarian on the part of either labor or capital will not be tolerated."

"The public cannot and will not be asked to bear the increased burden of the coal strike," he said. "The payment of a large sum as wages to any special class of workers," he said.

Pointing out that his conclusion had been reached only after careful and exhaustive research, Dr. Garfield declared neither the protest of the miners against the 14 percent wage advance, nor the insistence of the operators that they be permitted to charge a higher price for coal would be the basis for his decision that a 14 percent increase was the amount necessary to bring the miners' wages in line with the level of living costs of the nation. Operators could pay this advance without increasing prices to the public.

Officials Leave Washington  
A number of cabinet members and officials remained in Washington today, but all expected to leave for their homes tonight. John L. Lewis, acting president of the United Mine Workers of America, was closeted most of the morning with Secretary Wilson. He also arranged an interview with President Wilson in the afternoon. The American Federation of Labor, for its part, maintained the same attitude toward the situation that it had maintained during the weeks of discussion.

Officially I don't know that there is a coal strike on," he said, "but the government could get coal production resumed in this country if Secretary Wilson's proposal to give the men a 14 percent increase had been accepted."

Pittsburgh Mines Open  
Pittsburgh, Pa., Nov. 28.—The Pittsburgh coal company is willing and ready to cooperate with the government in its plan to increase the production of coal, and our mines are open and ready for operation as soon as the men want to go back to work," said W. K. Fields, president of the company.

Women's Wages Are Lost  
Issue before Labor Council  
(By Associated Press.)  
Washington, Nov. 28.—With the program revised by the government board so that adjournment would be possible today instead of tomorrow, delegates to the International Labor conference had but one hour to discuss the issue of women's wages for time lost just preceding and following motherhood and was expected to be disposed of speedily.

Albert Thomas, the conservative labor leader of France, was selected as the first director of the league of nations. Arthur Fontaine, of France, was selected as permanent chairman of the governing body.

College Editors Gather for Madison Convention  
(By Associated Press.)  
Madison, Nov. 28.—The advance guard of the Wisconsin Inter-Collegiate Press association will arrive in Madison today. The number of delegates from colleges and normal schools of the state will be more than 50, and will include editors and business managers of student newspapers, magazines and year books.

At least 10 of these will be women. The Duncan-Clark, chief editorial writer of the Chicago Evening Post, will speak at the opening meeting of the convention.

## READS PERSIAN BIBLE

American girl, dressed as Persian miss, reading the Koran.  
It isn't necessary to go to far-away Persia to read the Koran (Mohammedan Bible). This young woman is not a Persian, but a real American girl and is getting ready for the Persian art exhibition and display to be held in New York, the latter part of this month.

The exhibition was collected under the authority of the Throne of Persia, and comprises four thousand specimens of rare cloths and tapestries valued at more than \$1,500,000. The copy of the Koran which she is reading is the only one of its kind in the world and is valued at \$5,000. When rolled up it is one inch in diameter and three inches long and weighs three ounces. The Koran is read backwards from right to left.

## WEST HELD IN GRIP OF FLOODS, SNOW, ZERO TEMPERATURE

(By Associated Press.)  
Denver, Colo., Nov. 28.—Little relief is in sight for the flood conditions in the Arizona and snow and zero temperatures in northwest Texas, northeast New Mexico, northern Arizona, Colorado, Wyoming and the northwest which throughout yesterday crippled train service and greatly handicapped the coal production. Portions of the Colorado, Arizona, and New Mexico rivers were under water and inhabitants of the lowlands along the Salt river and Agua Fria river just fled to safety, some not before their homes had been swept away by the flood caused by excessive rains. Additional rain was forecast for today. Wire communication is paralyzed and loss of life is feared.

The Arizona canal broke, and released vast flood waters which may do much damage to the low lands. Trains from virtually every direction into Denver were delayed today, and zero temperatures prevailed throughout Colorado and Wyoming.

Show Is Prevalent  
Chicago, Nov. 28.—A blanket of snow, ranging from a fraction of an inch to two feet, today covered most of the country west of the Mississippi river and extended far east as Toledo, Ohio, with low temperatures prevailing throughout the area. South of the snow belt heavy rains fell and floods swept the low lands bordering the Salt and Agua Fria rivers in Arizona, with possible loss of life.

Firemen and Enginemen Discuss Wage Demands  
(By Associated Press.)  
Cleveland, Ohio, Nov. 28.—The general chairman of the Brotherhood of Locomotive Firemen and Enginemen, about 180 in number, met in separate session here today and discussed the demands of the organization for a wage increase of 40 to 45 percent. The demands were presented to the railroad administration in September, but the reply has been refused. The Brotherhood of Railroad Trainmen, who made similar demands, were advised that the question was up to President Wilson.

Old Hopkins University Is Destroyed by Fire

Allies Give Rumania Till Dec. 3 to Answer Note  
Paris, Nov. 28.—The supreme council today decided that the Rumanian government, which received the last allied note November 24, must reply to the representatives of the entente at Bucharest before December 3.

## GERMANY REFUSES TO OFFSET SHIPS SUNK BY CREWS

NON COMPLIANCE WITH ALLIED DEMANDS IS TOLD WITH AUTHORITY.

## COUNCIL ACTS

Peace Conference Considers Allotment of Tonnage of Enemy's Fleet.

(By Associated Press.)  
Berlin, Nov. 28.—It is stated in authoritative quarters here that Germany will not comply with the demand of the entente for 400,000 tons of docks, bridges, and tugs as an offset to the German warships sunk at Scapa Flow.

Berlin, Nov. 28.—It was indicated that Germany would stand pat on her proposition to refer the dispute to the Hague tribunal. It is claimed that Germany should not be held responsible for the acts of the marine forces at Scapa Flow.

Council Discusses Fleet.  
Paris, Nov. 28.—Discussing the sinking of the German fleet in Scapa Flow and the compensations to be obtained, therefore, the supreme council today admitted in principle the demolition of the units still in the hands of the allies, but the question of the distribution of the tonnage resulting from the breaking up of the ships was not decided.

France and Italy, whose ship-building yards have been idle since 1914, will receive certain units in lost as compensation for tonnage lost during the war.

Abolition Are Made.  
Although the percentage of the tonnage of the warships to be allotted to different powers was not finally fixed by the council today, it was agreed that the units to go to France and Italy will be at least five light cruisers and 10 torpedo boats each.

Each of the allied and associated powers will receive a large battleship and a torpedo boat for experience. The units to be destroyed within a year from the time of their delivery.

## ALLIES TO TAKE UP ADRIATIC QUESTION

(By Associated Press.)  
London, Nov. 28.—Great Britain has agreed that the Adriatic question will be taken up by the supreme council and that Great Britain's influence will be used to secure a just and equitable settlement in accord with the life and interests of Jugoslavia.

These reported assurances are coincident with the presentation of the case by the Italian commander at the Adriatic matter be taken up immediately.

Delegates here are inclined to view the inactivity during the last few days of Gabriele D'Annunzio, the insurgent Italian commander at Fiume, as a hopeful sign, although there is no disposition to assume that he necessarily has abandoned his plan for the annexation of Dalmatia to Italy.

Socialists Demand Action  
Milan, Nov. 28.—A meeting in which all the socialist deputies of Italy participated here last night resolutions were passed asking the government to energetically suppress the Italian socialist movement at Fiume and to establish a blockade to prevent food from reaching the troops.

NATIONAL EQUITY TO CONVEENE IN MADISON  
(By Associated Press.)  
Madison, Nov. 28.—The national convention of the American Society of Equity will convene in Madison on December 8.

There will be about 60 delegates at the convention representing Wisconsin and the states of Minnesota, Iowa, and Montana will be entitled to about 20 delegates.

November will not be a candidate for re-election as national president.

Firemen and Enginemen Discuss Wage Demands  
(By Associated Press.)  
Cleveland, Ohio, Nov. 28.—The general chairman of the Brotherhood of Locomotive Firemen and Enginemen, about 180 in number, met in separate session here today and discussed the demands of the organization for a wage increase of 40 to 45 percent.

Baltimore, Md., Nov. 28.—The group of buildings formerly occupied by John Hopkins University, and a square bounded by Howard, Ross, Monument and Eutaw streets were either destroyed or wrecked by fire today. The loss is less than \$1,000,000.

The blaze started in McCoy Hall, of the Hopkins group, and spread rapidly. The fire broke out at a Christmas party to the holiday.

Children in the city enjoying Thanksgiving recess halted the snow today with wild delight. This noon a group of youngsters was diligently trying out Second street with sleds.

Folk going to and from work this noon slipped and slid blundered the fakes from their eyes and predicted many feet of snow by tomorrow.

Weather pessimists, umbrellas shading them from the flakes, picked their way carefully about town, grumbling that winter was premature as usual.

## STORMS MAKE FUEL SITUATION CRITICAL; SHORTAGE IS ACUTE

SMALL CITIES SUFFER; DRASTIC CONSERVATION ORDERED; GOVERNOR OF KANSAS CALLS FOR VOLUNTEERS TO MINE COAL.

(By Associated Press)  
Chicago, Nov. 28.—Cold weather with snow and sleet storms, today had spread over the central and southwest and made more critical the fuel situation brought about by the 28 days' old strike of bituminous coal miners. In many small towns the coal shortage was acute, with actual suffering in prospect in some. Moderation of the cold wave by tomorrow, however, was forecast.

With no prospect of an immediate resumption of production in sight, efforts of the governor of Kansas to obtain volunteers to mine coal, and the announcement by Frederick D. Gardner, governor of Missouri, that he would call a conference of governors to discuss the situation, unless the government acted today, attracted chief interest.

Drastic Conservation Ordered.  
The most drastic conservation measures announced by any of the larger cities today had been ordered into effect at Kansas City, Mo., Sunday. Schools, theaters, and places of amusement were ordered closed. The least essential manufacturing plants will be closed immediately. The fuel situation and coal shortage and others will be listed in order of importance. Coal from the schools' supply will be distributed to domestic consumers.

In Chicago today there were renewed reports that train schedules would be curtailed further, but there was no complaint from Walker D. Mines, director general of railroads at Washington.

There were no reports of changes in the general situation as regarded the mines over the holiday period. The conference of governors, Mr. Gardner said, would be held at St. Louis, Chicago, or Indianapolis.

Gov. Allen Calls Volunteers.  
"Every department of human life is being up in this issue," said a statement by Henry J. Allen, governor of Kansas, concerning his appeal for volunteers to dig coal to relieve the coal famine and to protect the lives of those engaged in carrying out the plan.

Miner leaders had said the volunteer workers would be regarded as strike breakers. In Chicago some suffering because of the cold wave and coal shortage was reported. Persons who bought coal, said, were not having trouble in purchasing, it was said.

UHL'S TESTIMONY IS PROTESTED BY HOWE  
(By Associated Press.)  
New York, N. Y., Nov. 28.—The testimony of Byron H. Uhl, acting immigration commissioner, before the Senate committee on immigration investigating conditions at Ellis Island, was interrupted today by Frederic C. Howe, former commissioner who accused Mr. Uhl of not telling the truth.

The interruption came after Mr. Uhl had identified an order dated April 23, 1919, stopping the circulation of anarchistic literature at the island. A notation in the corner showed which was not revealed by immigration inspectors until June 4.

Mr. Howe asked whether Mr. Uhl ever remembered an order dated April 23, 1919, whereupon Mr. Uhl answered, "You held up that one, commissioner."

Howe then asked a question of Representative Baker. Mr. Uhl declared that it was the opinion of all the employees at the island that the conduct of the island's administration was "improper."

The committee began investigation of the cases of 15 radicals who had been brought here from Seattle last February, and released in March without bond.

The "hunger strike" today split the radicals into two groups—the left wing, which spurned food, and the right wing, which devoured it at every opportunity.

Administration officials indicated that the negotiations with Mexico would not be prolonged if unattainable; that the American government had decided upon a course of action and was prepared to carry it out should that become necessary.

Urges Use of Army to Release Jenkins, unless the Mexican authorities comply with this country's demand upon 24 hours' notice, was urged today by Senator Amhurst, democrat, Arizona.

"Mexico," said he, "should be given 24 hours to release our consul agent, Mr. Jenkins, and if he is not released at the end of that period of time, the American army should proceed to Puebla and release him."

(By Associated Press.)  
New York, N. Y., Nov. 28.—Alberto Angeles, the 22-year-old son of Gen. Felipe Angeles, who was executed by a Carranza firing squad at Chihuahua City last Tuesday, hopes to take up the work of his father dead—the duty of establishing in Mexico "a democracy that will respect its international obligations and its own constitution."

As newly created head of the Angeles family, the youth said he must first look to the financial welfare of his mother, sister, and younger brother. Once he has accomplished this, he said, he would go to Mexico to take up the fight.

## OBREGON FACTION CAUSES BREAK IN GOVERNMENT

CHIEF EXECUTIVE SEEKS SAFETY; GONZALES LEADS FORCES.

NOTE IS RECEIVED U. S. Firm in Stand in Jenkins Case, Seeks Further Investigation of Facts.

(BULLETIN)  
(By Associated Press.)  
Washington, Nov. 28.—James Wallace, an American citizen, was shot and killed by Carranzist soldiers near Tampico last Wednesday.

The state department today was advised of the killing and immediately ordered a thorough investigation.

San Antonio, Texas, Nov. 28.—Fighting in Mexico City between factions dominated by Carranza and General Obregon was reported in apparently reliable advices received here today from the Mexican border.

It was reported that President Carranza had fled to Queretaro for safety. The chief executive only recently returned to Mexico City from Queretaro, where he had been during the lingering, fatal illness of his wife.

General Pablo Gonzales was reported at the head of the Carranza forces. Details of the reported fighting were not available.

Obregon, formerly minister of war in the Carranza cabinet, resigned recently after announcing himself a candidate for the presidency, to be voted upon next July. Carranza has stated he would not again seek election.

Another potential presidential candidate is General Gonzales, who resigned from the army about December 5 to inaugurate his political campaign.

Washington Not Surprised  
Washington, Nov. 28.—Reports that Carranza and Obregon forces in Mexico City had clashed were received with no surprise in official Washington. It was said, however, that if they were true, the break had come a little earlier than expected.

General Obregon, according to information here, is not in Mexico City. He was last reported as leaving the Pacific coast for the capital in official campaign for the presidency into the "heart of the enemy's territory."

State department officials today were examining Mexico's reply to the American note demanding the release of William Jennings Bryan, a consular agent at Puebla, and warning Mexico that further molestation of the agent would seriously affect relations between the two countries.

Although further investigation of facts will be made, the American government has no intention of releasing from its position in the Jenkins case, administration officials declared today. The government, they said, is persistent of the next step, which may take the form of an ultimatum to the Mexican government.

New Issue Raised  
The Mexican reply to the American reply to the American demand for the immediate release of Jenkins raises a new issue that, administration officials said, must be investigated. Instructions will go forward to the embassy at Mexico City to obtain copies of the indictment and charge against the consular agent.

Administration officials indicated that the negotiations with Mexico would not be prolonged if unattainable; that the American government had decided upon a course of action and was prepared to carry it out should that become necessary.

## MISS BENNETT AND LARRAWAY MARRIED; BABY IS RECOVERED

Another page in the history of the confidence game case against Miss Bennett and Larraway today with the announcement of her marriage to her co-partner in the game, Horace J. Larraway. The wedding ceremony took place at Madison by Judge A. C. Hoppmann after he had imposed a sentence of six months in the house of correction upon Larraway, the same penalty as that imposed on Mrs. Larraway a week ago by Judge H. L. Maxwell in this city.

Under the supervision of the board of control the two are now living in Milwaukee where Larraway has been given employment. The family has been re-united with the obtaining of their seven-month-old baby, Elizabeth, from the county home at Kalamazoo, Mich.

Mrs. Larraway, as Miss Bennett, was arrested in Port Arkison three weeks ago after she had deceived Evansville merchants out of \$40 in cash on a thermometer advertising scheme. She admitted working the game successfully in the city of Chicago for five years. Larraway was apprehended at Madison for fraudulent conduct, both of them having admitted traveling about the country together as man and wife.

## \$2,300 TO DAUGHTER; CARED FOR FATHER

A special verdict of \$2,300 for back payments at \$7 a week for six years, and secured interest, was granted to Horace Bennett and wife, Albany, in the circuit court here late Wednesday afternoon against George Larraway, a former living at Albany. This amount is to be paid under an agreement, which the jury heard Larraway made in October, 1913, when he was charged with the care of his father, William Larraway, whereby he promised to give her \$7 weekly if he would provide a home with her family for 60-year-old father, William Larraway.

The case had been argued before the court for two days, Larraway claiming that the agreement entered into by him was not binding except to pay the sums out of funds belonging to his father, which he held, and that he was not bound to continue the payments. The case was argued by Larraway to live with his daughter, who was added to the use of morphine, in bad health and most of the time irresponsible with a drunken son, Boryman, who had been cured of the habit. He is still residing with the daughter.

## EXTRA SEWER TAX NETS CITY \$25,000; BIGGEST IN HISTORY

When Janesville property owners pay their annual taxes the city had in January they will find an extra assessment varying from 1 to 2 and one-half percent upon sewer taxes in front of their property.

Completed arrangements for the levy were announced today by City Treasurer George Muench. The total of \$25,914.36 will be raised in this way to pay for maintenance of sewer systems and to cover the cost of work at street intersections which has been the greatest this year of any time in the history of the city. It is the first time since 1917 that a levy of this kind has been found necessary. In that year only \$3,000 was raised. The total of the 1920 extra tax will be the largest ever recorded here.

\$25,000 total is to be apportioned among the 17 sewer districts of the city. The largest amount, \$6,000—will be collected from the district which includes the business section while the smallest—\$22—will be assessed against the Goose Island district.

## FOR BOYS AND GIRLS

By Mollie Price Cook  
This is a chart about girl growth. If you have perfect health and the right now is the time to start to get ready for next season. Here are a few simple rules to guide you in your seasonal preparation.

Have you a weakness? If so systematic work will build you up. For instance, if your ankles are weak, develop them by doing the following exercises. If you are weak in the arms, do the following exercises. These teach rhythm and co-ordination and harden one's physique so when the bumps come there is no resistance.

All football players should spend at least one hour a day throughout the winter months in the open air. Doing develops an field runner. Hobey Baker of Princeton, a real dodger in football, was a wonderful ice hockey player. Steffen of Chicago developed his cleverness among the crowded skaters in Chicago's parks. The best indoor work to develop football players is to play basketball. All good ends can handle themselves cleverly on the basketball court as the forward passing game calls for basketball tactics and cleverness.

In the spring get out in the country on a hike. Stocky legs with a drive are needed on the gridiron. This also develops a "will to go." During winter months swimming, although softening, is a good developer as the muscles are stretched, the chest expands and the arms and legs are worked in co-ordination. The running dive into the water in a fearless manner develops tackling cleverness and nerve. Boxing and rowing develop strength in the back, shoulders and arms. This is essential for line men as big, slow men will, in this time of year, be the most likely to be terminated. In spring football practice, work should be done on fundamentals as the autumn season of 2020 will be the most likely to be enough to develop the fine points of the game. Work up the special features as punting and drop kicking, forward passing, dodging, blocking, etc., in the off season.

(Next week: "Volley Ball")

## Pleasant Fields Of Holy Writ

Fourth Quarter: Lesson IX: John XIII; 5-10; 30-38; November 30, 1919.

Golden Text: The Son of Man came not to be ministered unto but to minister and give his life a ransom for many.

JESUS TEACHES PETER TRUE GREATNESS

Strange, disappointing and sad, this irruption of the old rivalry for position! In three years of schooling even Jesus had not been able to up-braid his master and worldly ruler for place and power. Each expected something. The only question was which should get the most. Even at the last supper it reassured itself. There is an unseemly scramble for positions of honor to right and left of the host and not one thinks for a moment of doing the lowly but necessary service, washing the feet of the Master and his guests.

He gives them time to think it over and repent of their pride and neglect. Then, only when it is evident that the washing was going to be left undone, Jesus, in full consciousness of his messiahship, inclusive of all the things the Father had put in his hands, rises from the couch and laying aside his outer robe girds himself for one of the kindest deeds ever done, on inclusive and typical of his entire office and mission. It is a simple, unassuming, and lowly task, the lowest scullery drudge, one which with their oriental views they had already omitted to do for the Master himself.

There is a message of love from John Martin to all the children who read it. If you are a child it is more fun than anything to go and call on John Martin in his office. There are certain afternoons when he likes to have you do that. It isn't at all like a regular office. It is a big old room with dim corners where strange faces smile carved smiles down from the woodwork. The walls are lined with books. You would think almost every picture book and story book in the world was there, and you can sit in a corner and read them all while John Martin sits at his desk and makes the magazine. There is a big eye on a shelf over his head who helps him. He has an elephant too, and a little dog. When you go away he might give you a little dog just like his.

Not only children like John Martin. Recently he received a check from a business man for a subscription. He is a business man, but he is not a business man in the usual sense. He is a business man in the sense that he has a business to run. He is a business man in the sense that he has a business to run. He is a business man in the sense that he has a business to run.

John Martin, God bless him.

The ingenious machines used by the census bureau to count, sort and tabulate the information gathered by the census enumerators are the product of the bureau's own laboratory. The sorting machines will take care of 300 cards per minute, the counting machine can do 500 cards a minute and the tabulating machine is capable of handling 400 cards each minute.

## PERSONETTE

JOHN MARTIN

Perhaps more children love John Martin than any other individual in the world. And that is because he is so friendly, so loving, so kind. His magazine, John Martin's Book, began as a series of story-letters to his children friends, and grew to be a monthly publication for all like just a message of love from John Martin to all the children who read it.

If you are a child it is more fun than anything to go and call on John Martin in his office. There are certain afternoons when he likes to have you do that. It isn't at all like a regular office. ## R. C. CHRISTMAS SEAL SALE IS OPENED

Sale of Red Cross Christmas seals in this state began yesterday and will continue until Christmas day. The seals which have been on sale at the same time each year are a Christmas seal. They are used on letters and Christmas packages. All proceeds from the sale of the stamps go to the Anti-Tuberculosis association.

Rev. Henry Williamson of this city is secretary of the local association. Dr. S. E. Buckmaster is president. Stamps will be on sale at the stores and in the schools of the city. The sale will be carried on in the rural districts through the schools. Joseph O. D. Antisdel has sent the names of teachers and schools in the county to headquarters at Milwaukee that the seals may be sent directly to them.

## Looking Around

**HORN HAS NO LUCK.**  
Alderman L. D. Horn has returned from his annual hunting trip in the northern Wisconsin woods. He was unable to bag his usual buck.

**JUDA HUNTERS GET DEER.**  
Six hunters from Juda, Wis., returned home yesterday on their return home from Winters, Wis., where they spent the last two weeks. Each hunter had obtained his prize and considerable attention was given the cargo of venison as the transfer was made at the local station.

**Work up Appetites.**  
Twenty young enthusiasts of the boys' division of the Y. were seen yesterday morning running through the streets of the city on their annual "street and hare hunt." The affair was in charge of A. C. Preston, boys' secretary.

**TOUJON IN CITY.**  
Deputy U. S. Marshal William Tilton was a visitor at the police station today. He was returning to Madison after an investigation in Beloit.

**BUYS SUGAR CHEAP.**  
Alderman W. J. Hill states that he bought 100 pounds of sugar for \$10.35 from a wholesale house Tuesday, all freight and delivery charges being prepaid. This is an average slightly over 10 cents per pound.

**PARIS.—**Evidenced by the colossal sums spent daily in France on jewels and luxuries, the French post-war passion for spending and speculation was demonstrated also by figures published by the Ministry of Agriculture which show that all records of race track betting by pari-mutuel were exceeded in the first race season. France has seen since the war, three great clubs govern racing in France. The sum that went to them as their four percent of the total amount bet at all the race meetings was nearly 300,000,000 francs, or about \$60,000,000.

**ARRESTS MAKE FRIENDS.**  
Carbondale, Pa.—This city claims to have the champion constable in the state when it comes to catching out service. His name is Michael Moran.

For two score years Moran has served as constable in the Fifth ward of the Pioneer City. He was a candidate again in the recent election, when he received 90 percent of the votes in his balliwick. Many of the votes were cast by men he has arrested.

Moran has placed between 1,000 and 1,200 persons under arrest during the long period in which he has reigned as chief officer in his ward.

**Two Boys Injured While Coasting on City Street.**

[BY ASSOCIATED PRESS.]  
Madison, Nov. 28.—Three boys, George O'Neill, aged 7, Richard Keeley, aged 5 and William Helm, aged 10, were seriously injured here yesterday when the sled on which they were coasting down Plackney street hit a car. The car was driven by a man who was the Central Wisconsin Trust company. The injured will recover.

**New German Notes Are Expected on Peace Terms**

[BY ASSOCIATED PRESS.]  
Paris, Nov. 28.—Germany is expected to send new notes to the peace conference concerning the surrender of most charged with responsibility of crimes committed during the war, and the replacement of German warships sunk at Scapa Flow by the crews, according to the Presses De Paris.

## "Ad" Did It

Last week a certain concern in Janesville inserted an advertisement in the "classified columns" of the Janesville Daily Gazette. As a result 30 replies were received. A second advertisement asking for a flat to rent received 20 replies.

## 500 DEER CARCASSES ARE SHIPPED DAILY

[BY ASSOCIATED PRESS.]  
Birchwood, Wis., Nov. 28.—Approximately 500 deer carcasses are shipped through Birchwood daily to the homes of hunters in all sections of the state, and in parts of Illinois. At Winter, near here, probably 3,000 hunters are in the woods.

## MOTHER NURSES DEAD SON THROUGH NIGHT

[BY ASSOCIATED PRESS.]  
Monroe, Nov. 28.—Unaware that her son was dead, Mrs. Louise Brown of Brownstown, lifted the body of the man from the floor to the bed and sat by the bedside throughout the night, applying wet cloths to the head of the corpse in an effort to revive consciousness. Mr. Brown, who was 60 years old, fell dead of a stroke of apoplexy yesterday.

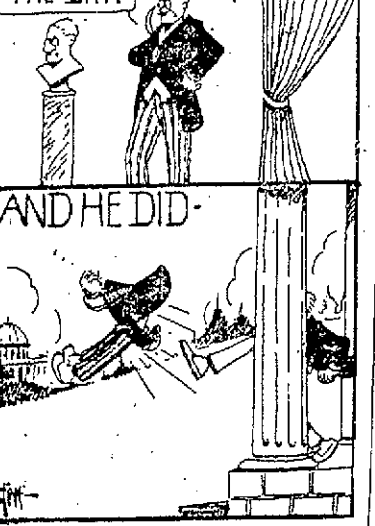

## KILLED FOR 12 CENTS

London, Eng.—While climbing into a lift well to recover a sixpenny place which his friend had dropped, Harry Fawcett, aged 17, a G. S. R. employee, at the London street, S. R., was crushed to death by a descending counterweight weighing 25½ cwt.

## THANKSGIVING BRIGHT DAY FOR HOSPITAL PATIENTS

Faces of 55 patients, Sisters, and nurses at Mercy hospital were radiant with cheer and smiles of joy Thanksgiving day when each was presented with a red rose by the Samuels' Sisters society. Each flower was tied with a bow of ribbon which held a card containing a riddle and its answer. All expressed grateful appreciation for the thoughtfulness of the girls.

## \$500 POLL TAX

London, Eng.—Twenty-seven Indians and twelve Chinese have arrived at Auckland from Sydney. They were all allowed to land, the Indians on passing an education test and the Chinese on paying a poll tax of \$500.

## WHAT WAS THE WORD?

London, Eng.—A man, charged at Willenden with beating, was said to have a scolding slip on him. He said it was only part of his wife's laundry bill. The inspector said that, whether it was the name of a horse or a lady's garment, the spelling was wrong.

## OLD TIME CRIMINAL TURNS TO MINISTRY

[BY ASSOCIATED PRESS.]  
Madison, Nov. 28.—Frank Madison, the police force for the inconvenience caused and the wrong done them while leading a life of crime, Louis E. Hand, now a student at the Metropolitan Bible school, Waukegan, Wis., and a candidate for the ministry, writes Chief of Police Thomas Shaughnessy and the citizens of Madison that he expects to return some day and make reparation for the wrongs done. Hand served a prison term before conversion to Christianity.

## OBITUARY

**Mrs. James Casey.**  
Funeral services for the late Mrs. James Casey will be held Saturday morning at 9 o'clock from St. Mary's church. Father Olson will officiate. Interment will be made at Mt. Olivet cemetery. Mrs. Casey passed away after a brief illness at Mercy hospital, Wednesday afternoon. The deceased was born in New York state in February 1861. Her husband, three sons and one daughter survive her. They are: James Casey, Sr., James Casey, Jr., and Joe Casey, all residents of this city, and one daughter, Mrs. A. T. Bohan, Milwaukee.

## The Saturday Night "Habit"

This is not a bad habit—in fact it is a very good habit.

Those who have this habit are prosperous. Their bank accounts are growing larger every week and they are happy.

The Saturday Night Habit is easy to acquire—just make it a rule to stop at the bank every Saturday night and deposit at least \$1 to your credit in the savings department.

Or—if you can come to the bank as easily during the regular banking hours of the day, you can avoid the rush better by selecting some other day of the week.

But it's the regular deposit of small sums that win.

## SAMSON PARTY WILL DRAW LARGE CROWD

Two hundred couples are expected to attend the informal dancing party given under the auspices of the Samson Tractor company at the Armory this evening. The Lakota club orchestra has been engaged to furnish the music. Dancing is to start at 8:30 and continue until 1. Light refreshments will be served at 11. Owing to the inability to entertain all who might care to attend as an "open house," the welfare committee of the Samson Tractor company has put on sale 200 tickets. Employees may attend the party this evening by the purchase of a ticket. Admission will be by ticket only. No tickets will be sold at the door.

## AGED MEN STAGE COURT BATTLE OVER WAGE PAYMENT

The case of two old men, one 71 and the other near that old, taking opposite sides in a suit for alleged non-payment of wages for six years, attracted considerable attention in the circuit court here. Richard H. O'Reilly, who says that he procured work with Henry Cox at Joliet as a farm hand about June, 1913, though no agreement was made as to any wage to be paid, now sues for back pay. In defense, Cox declares that O'Reilly came to him in 1913 begging for work, and asking for a home, and that he took him in out of sympathy and kept him until January, 1919, feeding clothing and housing him, and when ill providing medical attention.

It is believed the case will go to the jury some time this afternoon. Settlement out of court has been made in the case of L. T. Richardson vs. J. P. Cullen Co.

### Callus? Gets-It! Will Peel It Off!

Nothing on Earth Like Simple "Gets-It" for Corns or Calluses.

A callus or thickened skin on the sole of the foot, which often makes walking a misery, is of the same nature as a corn. "Gets-It" removes it as easily as it does the toughest corns. By using a few drops of "Gets-It" on the callus, you will be able to peel it off with your fingers, in one complete piece just as you would a banana peel. It leaves the skin soft and smooth as though you never had a callus. You need no more fussy bandages, sticky tape, "backing" or "padding." "Gets-It" is the national corn remover, the biggest on earth, used by millions. It never fails. You'll work, play and dance at ease in spite of corns.

"Gets-It," the only sure, guaranteed, money-back corn-remover, one but a trifle at any drug store. Mfg. by E. Lawrence & Co., Chicago, Ill.

Sold in Janesville and recommended as the world's best corn remedy by Smith Drug Co., Badger Drug Co., McCut & Buss, People's Drug Co., Red Cross Pharmacy, Reliable Drug Co., W. T. Sherer.

Mr. and Mrs. George Meekins have returned to their home in Chicago, after visiting relatives and friends here for a couple of weeks.

Mrs. Mary Monshau, accompanied by Mr. and Mrs. John Albertie, Madison, attended the wedding of a relative in Oconomowoc yesterday.

Miss Ruth Haylett is here from Union Grove to spend the week-end with her mother, Mrs. Helen Haylett, and other relatives and friends.

Miss Alice Wilder, who teaches in Racine, is spending the week-end with her mother, Mrs. Harriet Wilder, Liberty street.

## EVERYMAN'S DIARY

We didn't have a turkey yesterday. As for a pound it didn't seem in keeping with the "work and save" idea. And of course cranberries were out of the question. Without sugar. And mince-pie was omitted too—(Nobody wants 2.75% mince-pie). So we had a medium-sized chicken. With onions and mashed potatoes. And finished with rice-pudding.

The kids were brave about it. And Albee even said she liked chicken better. (Kids of poor parents are considerate). They know it's tough on their dad. To see them go without turkey. And they don't complain.)

Why are we thankful, then? Well, today we didn't have cold turkey. And tomorrow we won't have turkey hash. And Sunday we won't have turkey croquette. And Monday we won't have Grilled turkey bones and turkey soup. How we pity the homes That had a big turkey yesterday!

If the prohibition keeps on spreading, says ex-Sgt. SOL, there won't be much advantage in carrying the next war into the enemy's territory.

## QUESTIONS AND ANSWERS—THE TRUTH ABOUT THE ARMY

Conducted for Anxious Friends.

Dear Buck,  
Is it true that throwing dice was common in our army and that young recruits were tempted to take part in games of chance?

As a casual I served with many outfits both in America and abroad and I can assure you I never heard the expression "throwing dice" while I was in the army. As for games of chance and recruits, I never saw any games where recruits had any chance whatever.

From Life in the A. O. O.  
The scene is the office of the Assistant Provost Marshal who wasn't commissioned because of the way he danced—very hard-boiled. Enter an M. P. with a nurse and a Welfare Worker, very soft-boiled.

"Well?" says the A. P. M.  
"Fraternizing with a skirt, sir," says the M. P. with due regard to military form and courtesy.  
The A. P. M. gives the prisoner the double-O and snorts.

## ERROR WILL DELAY JANESVILLE BOXING

An error in the executing of papers in connection with a boxing club in this city, will probably postpone the first boxing match of the season, which was scheduled for the Opera House on December 5, to a later date. Backers of the scheme declare they will put on only legitimate matches approved by the State boxing commission, and run them upon an honest basis.

Efforts will be made to procure Clifford Leatherby of Rockford, Joe Mandella, Rockford, and Burham of Milwaukee for the opening night. More than 125 teams are in the association this season.

## Charlie Bick Resigns Captaincy of All-Stars

"To give the other fellow a chance" to captain the team, Charlie Bick has resigned the captaincy of the Janesville All Star Baseball club. Chic Babcock, All Star left fielder, succeeds him taking his post December 1.

## FIGHT DECISIONS

Jersey City.—Pete Herman out-fought Mickey Russell in an eight round bout.

Philadelphia, Pa.—Lew Tandler knocked out Johnny Noye in the second round. Benny Leonard and Soldier Bartfield battled to a draw. Willie Jackson won a close fight from Pal Moore.

Fargo.—Labe Saffro knocked out Mack Moore in the ninth round, according to the referees decision but the fight went the scheduled ten rounds.

Boston.—Wladek Zhyzsko threw "Strangler" Lewis in a one fall finish match.

## "Y" ALL STARS IN FINAL PRACTICE

The "Y" All Stars will finish up the rough spots tonight in practice for the game with Hager's high school team tomorrow night at the Y. M. C. A. at 7:45. Interest will be shown in Hager's work since he was formerly a member of the All Stars. No admission will be charged to the game.

The All Stars have booked teams from Madison, Edgerton, Evansville, Beloit, Rockford, Milton and Milwaukee, and a few local quintets.

## SELECT TEAMS AT 'Y' TONIGHT TO START BASKETBALL LEAGUE

Selection of men to form teams, and the election of captains, will take place at the Y. M. C. A. tonight in the formation of a four-team basketball league among the Senior class of the high school boys doing gym work at the "Y." A similar league will be formed in the Junior class. Bronze medals will be given to the members of the winning teams. The first game will be played on December 6. Contests will be played during the recess period. A schedule will be arranged so that each team

#### Cocoon Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain multi-fused cocoon oil (which is pure and entirely free of alkali) is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten the hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather and cleanse the scalp and scalp thoroughly. The lather rinses out easily and removes every particle of dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get multi-fused cocoon oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

### BULLDOG DEMETRAL KNOCKS SENSES OUT OF WRESTLER BRIEN

Knocked out completely when Demetral, the Bulldog Greek of Chicago, got a full nelson on him and executed a flying fall, Chick Brien, also of Chicago, lost a wrestling match staged at the armory yesterday afternoon. Though it had been announced previous to the set to that the flying fall would be prohibited, the principals decided before going on the mat that they would not bar it.

It took Demetral 31 minutes and 19 seconds to get the hold on Brien that told the story. With both men on a slippery, slimy mat, the Greek slipped the hold under Brien's neck, and pressing on the nerves at the base of the skull, he changed his hold while pushing on his stomach. Brien fell hard, with 150 pounds on top of him, landing on his stomach with a dull thud.

Brien in Poor Condition. Brien was not in the pink of condition. Had he been, the outcome might have been different. Nevertheless, he was as game as they make them. As soon as he revived from the first shock and impact, he announced that he would look again with Demetral if the crowd desired him, but that he acknowledged his defeat. The crowd, praising him for his guts, said he had done enough. This, despite the fact that it was only the first fall and the match was scheduled for the best two out of three.

With weight to his advantage, Brien had the Greek tiger panting hard for the first 15 minutes with nearly every advantage on his side. Time after time, he got Demetral around the neck—that is, where the neck commonly is, for the Greek has no neck; his hide is so thick and all muscle, that his head runs clean down to his shoulders. Many times Brien forced the Greek to the mat, only to find him able to scurry away with the litheness of a panther. Once, in an effort to make a down, he rolled Demetral over and over until they landed on the mat and had to begin catching-as-catch-can again.

After seven minutes of struggling, Brien tried a scissors hold, but his knees were weak, and once more he essayed the head hold. Then followed constant repetition of similar tactics.

Demetral Wriggles in Pain. Suddenly, Chick grabbed the Greek's toe and made him writhe in pain for two minutes, but Demetral had his leg too stiff and Brien's hold wasn't short enough. The bucky from southern Europe then started pushing on Brien's cranium until, with a quick, dexterous jerk, he bounced to his feet and wild enthusiasm from the house.

At 15 minutes, Brien commenced to tire as the bodies became wet and hard to catch. Quick as lightning, Demetral slipped through all of Brien's holds, tried a scissor, but missed out. Snapping out of danger, he would throw himself to his feet, and then turn sharply to close with his opponent. With such tactics, he finally earned the hold that decided the day and enabled him to continue his reputation of never having been thrown.

There were no preliminaries yesterday, because young Farmer

### OLSON AND LEVIS IN CARDS' LINE-UP TOMORROW NIGHT

With Harold (Ole) Olson in the line-up tomorrow night, holding down guard position and George Levis at forward, the Lakota Cardinals are ready to jump off at the whistle and run off some lightning basketball. The game will be the first of the season and will be against the Lat-A-Lots of Fond du Lac.

Olson has never played with the Cards, but his fame is not unknown to local fans. For three years he played fast basketball for the University of Wisconsin. At guard, he did much of the paving that led the Badgers to the conference championship in 1916-17. For two years he made the All-Conference five, his name thus becoming talked about all through the middle west and heard of outside in other basketball circles. At present he is keeping in form by coaching Ripon college as its athletic director. His work there promises to give the college one of the best teams it has had in a number of years.

Levis is not unknown to Janesville followers of the indoor court. A couple of years ago he participated in a few of the Cardinals' games when the team was just coming into its own. At that time he showed class and proved a great aid to the team, but other arrangements kept him from becoming a permanent member of the Lakotas. Levis is a graduate of the University of Wisconsin, where as a senior he not only made the Badger five, but soon became its captain. He is now coaching at Madison High.

Tomorrow's game will start at 9 o'clock sharp at the armory.

### Swedish, Danish, Plans For Trade Coup Foiled

(By Associated Press.) London, Nov. 28.—Swedish and Danish merchants who planned a commercial coup in Germany have suffered as the result of American commercial energy in the past few months.

An American salesman just returned to London from the continent said that large quantities of American goods are held in Sweden and Denmark that cannot now be disposed of. The Swedes and Danes purchased the goods from the United States in hopes of pushing it into Germany immediately when trade opened. When that time came they found American firms had arranged to supply the demand at prices under what the Scandinavian middlemen could quote.

# TROCO

## Saves as Well as Satisfies

Troco is a delicious, nutritious table luxury. And Troco saves you 25 to 40 cents on every pound. It enables you to enjoy generous abundance instead of having to practice disagreeable economy. Can you wonder that so many careful providers are using it?

What could be more attractive than the dainty nut fat of fresh coconuts, the food delicacy of the Tropics? Churned with pasteurized milk, it forms a nourishing luxury, which every one enjoys.

Troco is churned and shipped every day, on ice. If your dealer will order frequently and keep his stock on ice, Troco will reach your table as fresh and sweet as when it left the churn. Remember the name—Troco—when you order from your dealer. If he cannot supply it in perfect condition, write direct to the Troco Nut Butter Company, Chicago.

We are obliged to label Troco "oleomargarine" because of old laws passed before this nut-made product was invented. Troco contains no animal oils, just pure vegetable fats and pasteurized milk. Law also forbids our coloring while churning. Do you regard such discrimination as fair? Write your congressman about it.

## Warm shod—dry shod—clean shod

### The new "U.S." Walrus means all three

HERE at last is the overshoe that combines all the qualities you've always wanted! Look it over—it's the new U.S. Walrus.

It's an all-rubber overshoe that's absolutely waterproof. It's got a warm, snug-fitting fleece lining. It's convenient because you slip it right over your leather shoe—then push it off with your toe when you're through.

Best of all, the U.S. Walrus can be instantly cleaned. You can work for hours in the stickiest barnyard mire; then a pail of water or a rinse at the pump washes the U.S. Walrus clean—removes every trace of mud from its smooth rubber surface.

The comfort and convenience of the U.S. Walrus are backed up by real strength. A staff of experts have designed it—have made it an overshoe that is built to last. At every single

point where the wear is hardest, the U.S. Walrus is heavily reinforced.

Your feet will always be warm—dry—clean shod with the U. S. Walrus. In every way, it's the farmers' ideal overshoe.

Ask your dealer to-day to show you the new U. S. Walrus. After you've worn a pair for a day or so, you'll realize why they're fast becoming so popular with farmers everywhere.

### Other "U.S." models—all built for the hardest wear

Whether you prefer a boot or a bootie for the wet season, a "rubber" for general use, or a cloth-top arctic—you can find in U. S. rubber footwear exactly what you need.

Tough, heavy soles—special reinforcements at toe and heel—and always the highest quality rubber—these points are winning U.S. rubber footwear thousands of new friends every year. Look for the U. S. Seal—it means solid wear and long service for your money.

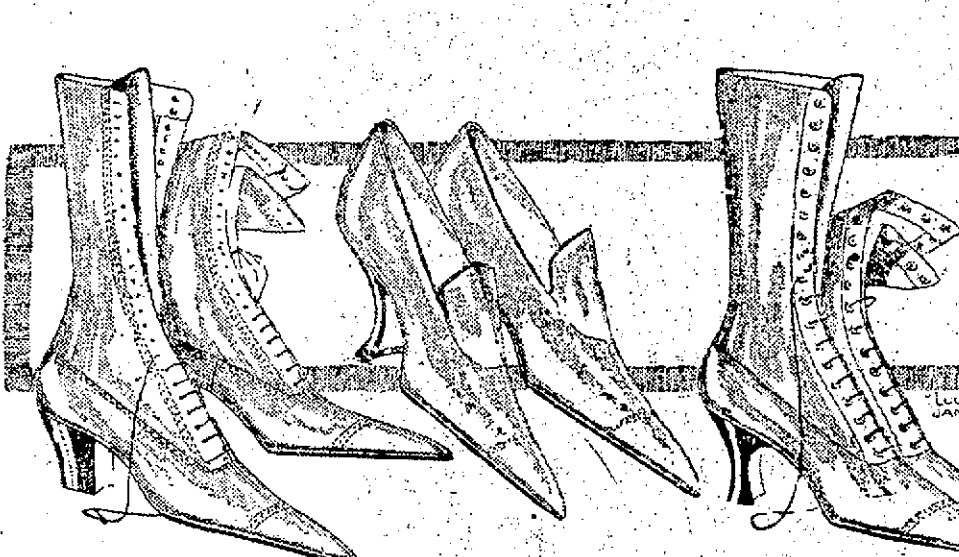

"U.S." Arctic—made of snow-tight cashmere, warm and comfortable. Reinforced where the wear is hardest. In one, two, four, and six buckles, all weights and sizes.

"U.S." Felt Boots—made of heavy, finest quality felt, all sizes. For wear over one and two-buckle U. S. Felt boots.

Nothing Else Ever Helped Her

Milwaukee Woman Says She Wasted \$500 On Various Medicines.

"Honestly a few bottles of Tanlac has done me more good than other treatments and medicines that have cost me \$500," said Mrs. E. F. Walch, living at 1012 West St., Milwaukee, Wis., the other day.

"This may sound like a very broad statement," continued Mrs. Walch, "but it is so, for I never got the least benefit from all the other medicines I took and after taking Tanlac I feel like a new woman."

"I have suffered with stomach trouble more or less all my life. I had a poor appetite and could scarcely eat a thing without it nearly killing me, and especially for the last few months, when I could eat only the lightest food. Everything I did manage to eat would sour on my stomach and gas would form and I would be bloated something awful. The gas would press up against my heart so I could hardly breathe and I would feel like I was choking. I never knew what it was but without a headache, and I had to severe pains almost continually in my right side and shoulders. I lost so much weight I was scarcely more than a frame, and was so weak I could hardly do my housework. I was so nervous I could sleep but very little at night, and would get up in the morning completely worn out."

"I saw in the newspapers where Tanlac had been of such benefit to others whose condition was described as being similar to mine so I concluded to try it. Well, it surely was what I needed, for after taking only four bottles my stomach is all right and I have such a fine appetite I can eat anything I want and I never suffer the least bit afterwards. I am not bothered with gas or bloating any more and the smothering and choking spells have disappeared. I haven't had a headache since I began taking Tanlac, and the pain in my side and shoulders are things of the past. My nerves are in fine condition, and I sleep all night long without waking up once, and get up in the mornings feeling refreshed. In fact, I never felt as well before in my life, and I will never miss a chance to say a good word for Tanlac."

TANLAC is sold in Janesville by all leading druggists.

DELAVAN

[By Gazette Correspondent.]

Delavan, Nov. 25.—Two freight cars ran off the track yesterday noon back of the freight depot. The accident was caused by spreading of the rails. One of the cars was loaded with sugar on the way to Burlington. The cars were out on the track by the wrecking train. No damage was done.

Victor Walker is spending a few days this week in Delavan.

Deer Hunting Not Successful

Blanchwood, Wis., Nov. 25.—The first days of deer season did not prove successful for hunters in this section. Lack of snow coupled with the fact that there are more hunters in the woods here than in other years, resulted in fewer deer being killed. Up to several days ago, four inches of snow lay upon the ground and had this remained, wounded deer would have easily been traced. The fact that deer hunting has been prohibited in some Wisconsin counties is the reason chiefly of the many more hunters here. Ex-servicemen are also responsible for the additional men in the woods.

Manages Pulp Plant

Kaukauna, Wis., Nov. 25.—Pittsburgh, until recently connected with United States navy training camp work, has been appointed employment manager of the Thimble Pulp and Paper company of this city. He will have charge of all matters of personnel, safety first, employment and discharge, and other matters pertaining to the comfort and convenience of the employees while on duty. The Appleton plant will be under his supervision as well as the mills of this city.

PERSIAN TRIMMING RETURNS TO FAVOR

By ELOISE.

There seems to be a return to all things old in the newer fashions. The draped and paniered skirts of grandmother's time are coming back, of course in moderation and new versions. The basque blouse is with us again, in braid and fringe, trimming in contrasting colors has also staged a "comeback" and of course everybody knows that hips are again in style after a banishment lasting over many, many seasons. It is the new twist or turn the artistic designer gives the old fashioned idea which makes it appeal to the modern woman. Lady Duff Gordon is an adept at reviving old ideas and working them into new frocks.

Here she has used Persian wool trimming to set off a plain tailored frock of Havana brown tulle. Persian trimming has always been popular but for 10 years past it has been discarded in favor of embroidery. Now Lady Duff Gordon takes a narrow piece of Persian braid and trims the neck line, blouse seams and sleeves with it and behold there is a new fashion launched. That is all there is to note about the frock, except that the severity of line is relieved by a deft loop in the skirt.

Thousands take them every night just to keep right. Try them. 10c and 25c.

There is nothing remarkably unusual about the frock, yet it has that elusive something which marks the exclusive garments of expert designers. any hour of the day.

## OLD HULLING PROCESS COPIED BY SEEDSMEN

Clover seed used to give a better stand than it does now, old farmers say, and L. F. Graber is ready to support the theory. Not because the seed was any better, says Mr. Graber, secretary of the state alfalfa order, but because the old method of hulling seed was to drive the coats over the clover straw until the seeds were pretty well threshed out. The coats of the clover were then rubbed off the seeds, producing the same effect as the modern process, called scarifying.

Scarifying is recommended for all clover seed which shows a high percentage of hard seeds. It means scratching the seed surface so that the germination is not hindered by a hard shell.

The process is not one to be carried on by the individual farmer, but it is pointed out that the higher increase in germination from scarified seed repays the slightly higher price which seed companies ask for the processed stock. In trials at the Wisconsin experiment station it was found that scarifying increased the germination of one sample from 77 to 94 percent. All the hard ungerminated seeds from both lots of the sample were then planted in the open field in April. Of the scarified, 46 percent produced plants as compared with a 55 percent germination of the unscarified.

## CLOVER SEED IS BIG CROP ON DAIRY FARM

Douglas county is a dairying county and clover hay and silage are part of the dairying industry, but 750 bushels of clover seed is the profitable by-product in the county this year. A Foxboro dairy farm produces 50 to 100 bushels of clover seed each year, the first crop being taken for silage, the second for seed. The clover from the seed crop takes the place of clover hay on this farm. The seed ranks high in quality, placing first at many of the state grain shows.

Much of the Douglas county seed is alask, but none of it is medium red. The seed will be supplied to meet the needs of farmers in the county, and surplus amounts will be listed at the office of the Wisconsin Experiment association, so that growers in the state may be supplied.

The clover seed industry in this county began in 1908, according to E. J. Delwiche, director of the northern branch experiment association, with the purchase of a clover seed huller to be used by all the growers.

The general plan of having one machine to do the work for the whole section is still being followed, says the county agent, but the machine is now privately owned.
